

**Thermal Imaging Survey  
Conducted at  
1072 High Road London N20 0QP**

**Water Leak**

**3th April 2008**

**By  
LeakBusters  
Engineer  
David Farmer**

IR information	Value
Time of creation	08:25:48
Object parameter	Value
Atmospheric temperature	21.0 °C
Label	Value
LI01 : max	21.8 °C

IR information	Value
Time of creation	09:00:05
Object parameter	Value
Atmospheric temperature	21.0 °C
Label	Value
LI01 : max	22.6 °C

IR information	Value
Time of creation	09:02:56
Object parameter	Value
Atmospheric temperature	21.0 °C
Label	Value
LI01 : max	23.6 °C

IR information	Value
Time of creation	09:31:33
Object parameter	Value
Atmospheric temperature	21.0 °C
Label	Value
LI01 : max	24.2 °C

The 4 images above show how the thermal patterns are increasing over a period of a hour, this indicates that a water leak may be present in this area.
